Experience

Freelance Front-end developer

Actually working

- Creating projects to show them on a portfolio

Carpenter

Carpentry of my own (2020-2021)

I had to continue with the familiar business due to problems finding jobs of my career, here is when I started to move my skills programming robots to web development at the same time that I worked as a carpenter.

CEO of Startup

SIDES Problem Solving, (2019-2020)

As CEO of a startup my obligations were to get in touch with clients, providers, to administrate the money, to build the projects (Mechanicals) most of projects were machines to help farmers to do the work easier. This startup isn't on operations anymore due to economic issues.
